Become a Visionary: *Harness the power of vision to lead with more impact, increase meaning in your work and play a bigger game. – Kate Purmal*

Vision matters. It is a critical trait for business leaders and essential for entrepreneurs seeking to secure investment in their companies. Here's the thing — vision is the one area that women lag our male counterparts. Closing the gap and reaching new heights of success starts with becoming visionary. Most people think that visionaries are born, but really vision can be taught. Thought leader Kate Purmal shows us the simple formula that sets visionaries apart. In this interactive workshop, Kate illustrates how to cultivate vision. You'll learn the steps and actionable tips to overcome fear and doubt, eliminate resistance and remove internal roadblocks. Through the process, you'll become inspired and compelled to step out of your comfort zone, to confront and force changes in the things that hold you back. You'll naturally step up and start to play bigger. And that will lead to a more satisfying and meaningful life.
