Dear Prospective Participants:

With the theme **Filipino Nurses World-Wide: Unite for Global Health and Nation-Building, the First Global Summit for Filipino Nurses will be held on Thursday, January 16, 2014 at the Manila Hotel, Philippines.** This historic event is being sponsored by five conveners: The Philippine Nurses Association of America (PNAA), The Philippine Nurses Association, Inc. (PNA), The Association of Deans of Philippine Colleges of Nursing (ADPCN), Association of Nursing Administrators of the Philippines (ANSAP) and the Commission on Filipinos Overseas (CFO).

The main goals of this global summit are to describe the experiences and to discuss the impact of Philippine nurses' global migration to form the basis for policy development and inter-country collaboration. It will focus on the positive and negative effects of nurse migration to both the exporting and receiving countries of these professional healthcare migrants. Additionally, this global summit will endeavor to recommend actions and policy resolutions to improve the overall experiences of the migrant healthcare professionals and support the development and mutual cooperation of the countries involved.

A policy declaration paper of these recommendations will be drafted for implementation as a product of this summit. The recommendations, resolutions, and policy actions will be tracked, monitored and evaluated every two years in conjunction with the Philippine Nurses Association of America (PNAA) International Nursing Conference. Participants will include experts on global migration, Philippine Nurses Association (PNA) chapters and nursing organizations in different parts of the world, national nursing associations of respective host countries, and other key players in the various diasporas.

You are invited to join this historical event in the Philippines and be a part of sustaining the nation- building. We look forward to seeing you in this seminal event.
